Tina you were one of my most favorite patients of all time. Despite your poor vision it was amazing the fine detail in coloring you were able to do. It brings a smile to my face every time I see one of your pictures in the NP office. Although you had lots of medical problems you never complained. You will always be remembered. You surely enriched my life. Watch over me from above and give me strength to take care of others.

Tina, as you look down upon us, please pray for courage, resilience, and good positive attitude for all our transplant patients as well as providers. We all miss you. I saw one of your colorings last month when I was on service and it brought back fond memories of you. I am forever blessed for knowing you. Thank you! You will always have a place in my heart.

Tina was a person that never complained. She had multiple hospitalizations and complications from the transplant but remained positive and appreciative. I still can't believe some of the detailed coloring that she had done when she could barely see. Whenever I think of courage and optimism I can't help but think of Tina. Her struggles with life and positive attitude has grounded me to become a more humble, caring, and appreciative physician. My life has been blessed and enriched from knowing Tina Baker! Tina, you are missed and will never be forgotten!

I've had the pleasure of caring for Tina over the years and, without exception, she is one of the kindest and most considerate people that I have had the pleasure to meet. One night when I took care of Tina, many years ago, my father was hospitalized out-of-state and I had to leave her room to make some phone calls. What makes Tina stand out? Every single time that I took care of her, regardless of how sick she was, she asked me how my dad was. That touched my heart. She was a special woman and will be missed.

Renee, I am so sorry for your loss. I wish I could have seen her in the hospital. Your mom had fought a long and courageous battle and she will always be remembered. As you know I was very fond of your mom. Despite all the medical issues she was never a complainer. I suspect her fighting attitude about her illness comes from her love and desire to be with her family. I admire the closeness and togetherness of your family. There is no question, without this she would have passed years prior. She will always have a place in my heart. My thoughts and prayers are with you and your family. Sam Penza
