Monica, Diane and Keith, Time and life has taken us in different directions but memories last forever! Your father was a great person and I saw him often lately! He too reminded me of my father (his brother). Please let his memories be your comfort. Love to all of you! Atha Stalling Shrivvers

There are several things that I remember about Harry. One is of him showing us how he could stack a deck of cards. Another thing is that he and my dad (Walter Whyde) would often go out and cut wood together. Once, Harry had a brand new truck and my dad was worried that the tree they were cutting would twist when it fell and hit the truck. My dad told Harry that he should move the truck because the tree was going to twist when it came down. Harry wasn't the least bit concerned--no tree was going to hit his truck. Unfortunately, my dad was right, not only did the tree twist and hit his new truck, but it also took out the power lines that were there. When I got married, although he didn't know Bob very well, he used his "connections" to get us a reception hall for nothing. We will miss him, he was a lot of fun to be around. Our sincere condolences to the family at this time of grief. May Jehovah strengthen and guide you at this time.
